## APPLICATION SOLUTIONS FOR INVESTORS AND ASSET MANAGERS

TAZAVOX is an online portal built for investors and asset managers to facilitate the management and sales cycle of residential real estate properties. With a keen focus on accurate and timely decision making processes, TAZAVOX offers you a seamless communication platform with brokers, vendors and clients. You are now able to have visibility of the entire process including activities of the lifecycle of your assets with a complete ROI model and reporting.

Asset management has never been easier. With complete task automation and document management, you are able to follow your task plans and assign the broker and vendors their needed activities to complete. There are separate logins and interfaces for investors, asset managers, vendors, brokers and buyers' agents.
